11) Teaching methods applied:

- Synopses of syllabus topics to be taught are distributed among the students so that they should get the idea and basics.
- Questions are asked in the classes during and after the completion of lecture and relevant answers are encouraged.
- Some topics from the syllabus and some related advance topics are announced in advance for group discussion.
- Students are asked to deliver the seminars on different topics from the syllabus.
- If necessary overhead projectors, transparencies and LCD projector and internet facilities are used.
