PSO III	<ul style="list-style-type: none"> Students will be able to Enjoy reading the short stories, poems, novels and dramas. 	Students seeking admission for B.A.Programme are expected to imbue with the following quality which helps them in their future life to achieve the expected goals.
		PSO IV	Have enriched confidence to appear for competitive examination	1. Realization of human values.
		PSO V	5) Students will learn Writing skills	2. Sense of social service.
	English Literature		Bachelor of Arts	3. Responsible and dutiful citizen.
	B.A. I Sem I	PSO I	1) Students will be able to Relate literature to life	4. Critical ability.
Co I	Students will be introduced to famous literary figures in English Literature	PSO II	2) Students will acquire thorough knowledge of literary terms	The B A graduates can do post graduation in their respective subjects studied in under graduate level. They can do B Ed course and opt teaching career in the school.
CO II	Students will learn Various terms used in English literature	PSO III	3) Students will acquaint themselves to various genres in English Literature	They can do journalism, Tourism, judiciary (law), Linguistics. They are eligible for any competitive exams conducted by UPSC. They can do MBA. Post Graduate diploma in

				Computer PGDC. Certificate courses of any discipline.
CO III	Students will understand Rasa Theory , New Criticism and Existentialism	PSO IV	4) Students will be able to broden their their thinking by studying literature	
	B.A.I Sem II	PSO V	5) Students will know various life situation and will learn how not to learn in particular situation	
CO I	1) Students will be introduced to famous literary figures in English Literature	PSO VI	6) Students will learn various Literary theory and Critical theory	
CO II	2) Students will learn Various terms used in English literature			
CO III	3) Students will understand Reader Response Theory, Orientalism and cultural Studies			
	B.A. II sem III			
CO I	Students will be introduced to famous literary figures in English Literature			
CO II	Students will learn Various terms used in English literature			
CO III	Students will learn literary genre Novel, Short Story,& Autobiography			
CO IV	Students will learn Archetypal criticism, Russian Formalism, Structuralism and Narratology			
	B.A. II sem IV			
CO I	1) Students will be introduced to famous literary figures in English Literature			

CO II	2)Students will learn Various terms used in English literature			
CO III	3)Students will learn literary forms The Essay, Criticism and style			
CO IV	4) Students will learn literary theories Post colonialism, Post structuralism, Feminism and Psychoanalytic criticism			
	B.A III sem v			
CO I	1) Students will be introduced to famous literary figures in English Literature			
CO II	2)Students will learn Various dramatic forms Tragedy, Comedy			
	Tragi-comedy ,Farce, Melodrama The masque, The one act play and The Masque			
CO III	3) Students will learn Political Satire Animal Farm			
	B.A III Sem VI			
CO 1	Students will be learn various forms of literature as soliloqui aside Tragi Comedy shakespearean Comedy and Shakespearean Romance			
CO II	Students will be introduced to famous literary figures in English Literature			
CO III	Students will be able to learn various literary terms			
	Political Science			
	B.A. I (Sem. I)			
CO I	Salient features of the Indian constitution .	PSO 1	students will be able to write clearly and with purpose on issues of national and domestic politics and policy	

CO II	2) Preamble Nature & Importance.	PSO 2	Students will be able to engage civically member of society	
CO III	3) To know Fundamental Rights, Duties and Directive Principles of state policy.	PSO 3	Students will be able to analyze political program and formulate policy options	
CO IV	4) To know about citizenship.	PSO 4	students will be able to discuss major theory of Political Science	
CO V	5) To know about central Govt. cabinet , legislature judiciary.	PSO 5	stufdents will be able to understand the basic principles of politics including governing institutions, its branches,political wings and organizations.	
CO VI	6) Supreme court and high courts.	PSO 6	Students will be able to understand government's political behaviour.	
	B.A.I (Sem.II)	PSO 7	students will be able to compare government's politics in global context	
CO I	1) To know about Election Commission.			
CO II	2) To know about Electoral Reforms.			
CO III	3) State Govt. Governal , Chief - Minister, Cabinet.			
CO IV	4) To know about state legislature.			
CO V	5) Local self Government in Maharashtra , Gram-Panchayat, Panchayat Samiti , Zilha Parishad ,			
	Nagar Parishad , Maha Nagar Palika			
	B.A.II (Sem. III)			
CO I	1) To know about the salient features of the constitution of U.K.			
CO II	2) To know about the Parliament of U.K.			
CO III	3) To know about the Crown, Prime Minister and Cabinet.			

CO IV	4) To know about the salient features of the constitution of U.S.A.			
CO V	5) To know about Legislature and Judiciary of the U.S.A.			
CO VI	6) To know about South Asian Association for regional co-operation (SAARC)			
	B.A.II (Sem. IV)			
CO I	1) To know about the salient features of the constitution of China (1982)			
CO II	2) To know about the president , Prime-Minister , State council.			
CO III	3) The role of communist party in China.

CO-8	Understand the Politically, Military ,judicial administration in marathas power .			
CO-9	Aware about the religious policy of Maratha.			
	B. A. II. Semester –IV History of India (1757 to 1947 AD)			
0	Knowing About advent of European Power.			
CO-2	Understand the tools of expansion of British dominion in India..			
CO-3	Knowing about economic changes in India by the British. .			
CO-4	Understand about revolt of 1857. .			
CO-5	Aware about socio –religious movements..			
CO-6	Knowing about Modern education in India.			
CO-7	Understand about the rise of Nationalism .			
CO-8	Knowing about Indian national Congress .			

CO-9	Understand the contribution of mahatma Gandhi in freedom movement			
CO-10	Knowing about consolidation of British rule.			
CO-11	Knowing about revolutionary movement and contribution of Subhash Chandra bose.			
	B.A. III. Semester- V History of Modern World (1780 to 1920)			
CO-1	Understand about the French revolution and contribution of napoleon Bonaparte.			
CO-2	Knowing about rise of new states (Italy & Germany).			
Co-3	To know about foreign policy of Bismarck & William II, Triple Entente 1907, Russo – Japanese war ,14 points of Wilson, Frist world war causes and effects.			
CO-4	Understand the entry of USA in first world war.			
CO-5	Knowing the concept of Communism ,Capitalism ,Socialism.			
CO-6	Knowing about the causes & effects of Russian revolution.			
CO-7	Understand the Paris peace Conference, Treaty of Versailles.			
CO-8	Knowing about league of Nation.			
	B.A. III Semester-VI History of modern World(1921to 1965)			
CO-1	Knowing about the rise of fascism , Nazism in Italy & Germany .			
CO-2	Knowing about the rise Stalin in Russia and his policy.			

CO-3	Understand about the Great Economic Depression and its effects .			
CO-4	Knowing about the causes & effects of Second world war,			
CO-5	Understand about The rise of Russia & USA as world power.			
CO-6	Knowing about The cold war, Truman doctrine, the Marshall plan and military alliances			
CO-7	Understand about The Suez Crisis, European Unity and disunity, and nonaligned movement.			
	Department of Economics			
	B.A I Sem I			
CO-1	Explain the function of market and prices as allocative mechanisms.	PSO-1	Students are expected to be able to apply economic analysis to everyday problems in real life situation, to understand current events and knowledge of various policies of government.	
CO-2	Apply the concept of equilibrium to both micro Economics.	PSO-2	Students are expected to understand empirical evidence to evaluate the validity of an economic argument and use statistical methodology.	
CO-3	Define and apply the concept of demand, utility, supply, output, input, cost, elasticity, type of market.	PSO-3	Students are expected to understand the institution and operation of the Indian economy.	
CO-4	Describe the incomes earned by the factors of production (wages, interest, rents and profit)	PSO-4	Students will be able to make the connection between economics and their individual economic problems.	
CO-5	Measure marginal, average and total- (utility, cost, revenue ext.)	PSO-5	Students will be able to communicate arguments and effectively present them	

			in written and oral presentation on economic topics.	
		PSO-6	Set up and keep current a database concerning career opportunities for undergraduate majors and undergraduate option in economics.	
	B.A I Sem II			
CO-1	Student will understand the charities of maharashtrian economy.			
CO-2	Student will be understand the problem of papulation growth.			
CO-3	Student will know about agriculture, industries ,public finance in Maharashtra.			
CO-4	Student will be know the causes of farmers suicide in vidarbha.			
	B.A. II Sem III			
CO-1	Using employment and national income students will be able to describe and analyze the economy in quantitative terms.			
CO-2	Define and apply the concept of money, aggregate demand aggregate supply, investment, national income, monetary and fiscal policy, tax, budget.			
CO-3	student will be able to know inflation and deflation its impact on market.			
CO-4	student will be able to know international and inter-regional trade.			
	B.A. II Sem IV			
CO-1	1) Students will understand the meaning, charities and functions of money .			

CO-2	2)student will be know the function and role of the reserve bank in economy.			
CO-3	3)Student will be able to describe the contemporary banking and analyze the credit system,monetary policy and monetary system.			
CO-4	4)student will be know and how to apply the debit card ,credit card, money transfer system(R.T.G.S,Net banking,moble banking)			
	B.A. III Sem V Economics			
	students will be able to understand Indian Economy and planning			
	students will be able to understand the terms Liberalization, privatization and Globalization			
	students will understand importance of agriculture in Indian economy			
	students will be able to understand Agricultural productivity, agriculture marketing			
	students will be able to learn India Industrial Policy 1991 and industrial disputes			
	students will be able to understand importance of small scale industry			
	students will be able to understand foreign trade			
	students will be able to understand characteristics of trade union			
	students will be able to understand the concept of Indian Poverty, Unemployment			

	students will be able to understand Pollution , global warming , and natural resources			
	B.A III sem VI Economics			
	students will be able to understand the importance causes and impact of population growth			
	students will be able to understand characteristics of Indian Polulation			
	students will be able to relate economic development and population growth			
	students will know the causes and effects of migration			
	students will be able to know the concept of urbanization			
	students will be able to know population control policies of Indian Government			
	DEPARTMENT OF HOME ECONOMICS			
	B.A I SEM I			
CO 1	To Introduce the students to the field of Home Economics	PSO 1	Student can start self Employment	
CO 2	To Create an awareness among the students about resources and their management in family	PSO2	Student will be able to prepare highly dietable food from domestic material	
CO 3	To Provide knowledge and develop skills regarding principles and method interior decoration.	PSO 3	Students will know kitchen hygiene protecting nutrition of food	
CO 4	To make aware about decision making capability of the women.	PSO 4	Students of Home Economics can have knowledge of child's intellectual, psychological emotional and overall development.	

CO 5	To develop skill regarding preparing the bouquets and flower arrangement for decoration and enhance of employmen	PSO 5	Students of Home Economics can become self nutritionist	
		PSO 6	Students of Home Economics can have knowledge of surronding, knowledge of home treatment and hereditary diseases	
	B.A I SEM II			
CO 1	To acquire basic knowledge of principle in volved planning of residential house.			
CO 2	To learn and apply various methods and techniques of work simplification			
CO 3	To develop employability skills and the skill of earning while learning.			
CO 4	To bring awareness about waste management and water conservation for environment protection.			
CO 5	To train the students from self employment point of view.			
	B.A II SEM III			
CO 1	To Understand the basic concept of nutrition			
CO 2	To gain the knowledge of food function and nutritive value of food			
CO 3	To develop abilities to plane diets for various stages.			
CO 4	To inspire the Entrepreneurial skills.			
	B.A. II (Sem. IV)			
CO 1	To understand the basic concept related to nutrition			
CO 2	To development abilities to plan diets for various diseases			

CO 3	To understand the methods of food preparation and food preservation			
CO 4	To encourage the students for self employment.			
CO 5	To aware the work of different agencies in the area of health.			
	B.A. III (Sem. V)			
CO 1	Students to make human development.			
CO 2	Students to make the diciges of female children's.			
CO 3	Understanding how to take care of present women for healthy futas			
CO 4	Students to make the all stages of human development.			
CO 5	Understanding the problems of child hood.			
	B.A. III (Sem. VI)			
CO 1	To aware the role of heredity & environment in development			
CO 2	To state the role of parent & teacher in child development.			
CO 3	To introduce the problem of child .			
CO 4	To inspire the students for skill based activity.			
CO 5	To study the definitions and meaning concering the concepts.			
	Department of Sociology			
	B.A. I Sem I Sociology Introduction of Socilogy			
Co 1	Students will be able to introduce themselves with the subject and its relation to other subjects	PSO 1	Students will be able to develop a strong foundation of sociology as a distinct discipline in social Science Arena	

CO 2	Students will be able to understand the importance of sociology to analyze Social problems, Social policy, development, and profession	PSO 2	Students will be able to understand and analyze the inherent complexity of Social life as a whole	
CO 3	Students will be able to to learn th6p basic concepts of Sociology like society, community, social Groups,Social Structure	PSO 3	Students will be able to understand Indian society and its social structure	
CO 1	Students will be able to learn social institution and its characteristics	PSO 4	Students will undertake critical appraisal of the grand theories of sociology and contemporary social issues	
CO 2	Students will be able to learn the terms like social control, Social Conformityand Deviation	PSO 5	Students will be able to understand the process of social change development of modern organization,and importance of demography in bringing about social change	
		PSO 6	Students will be able to understand development of human as a social animal	
	B.A. I Sem II Sociology Introduction of Socilogy			
CO 1	Students will be able to learn the relation between individual and society			
CO 2	Students will be able to learn the various aspects of Social Institutions like Family and Marriage			
CO 3	Students will be able to learn about Religion and Political system			
CO 4	Students will be able to learn various dimensions of Social Movements			
CO 5	Students will be able to learn social Stratification and concept of Social change			
	B.A. II Sem III Social Problems in India			

CO 1	Students will be able to learn various aspects of Social problems			
CO 2	Students will be able to learn the various aspects of Familial problems like Dowry, Domestic Violence against women and Divorce			
CO 3	Students will be able to learn the various aspects of population problem in India			
CO 4	Students will be able to learn contemporary problems in India like Migration Unemployment and Farmer's Suicide in India			
CO 5	Students will be able to learn about the problems of Alcoholism and Drug Addiction			
	B.A.Part-II Semester-IV Social Problems in India			
CO 1	Students will be able to learn about problem of Corruption			
CO 2	Students will be able to learn the problems of Terrorism and White Collar Crime			
CO 3	Students will be able to learn the problems of Weaker sections of Society like Schedule Castes and Schedule Tribes			
CO 4	Students will be able to learn various aspects of problems of Urbanization			
CO 5	Students will be able to learn various things about Intolerance and Riot Crime			
	B.A III Sem V Introduction to Social Anthropology			

CO 1	Students will be able to learn Social Antropology and its relation to other subjects			
CO 2	Students will be able to learn various methods of social Antropology like Field method Historical method			
CO 3	Students will be able to learn Indian Tribes			
CO 4	Students will be able to learn Tribal Religion			
CO 5	Students will be able to learn Tribal Economics			
	B.A III Sem VI Social Anthropology			
CO 1	Students will be able to understand Tribal Social life specially its marriage system			
CO 2	Students will be able to learn family and clan and their characteristics			
CO 3	Students will be able to learn the term Totemism and Dormetory			
CO 4	Students will be able to learn tribal problems like poverty and indebttness, land alienition and agrarian issues, iliteracy and Exploitation			
CO 5	Students will be able to learn tribal development process and obstacle in thir development			
	Department of Music			
	B.A I Sem I			
CO 1	विद्यार्थ्यांना स्वर ताल नियमबद्ध गाण्याची माहिती मीळते	PSO 1	विद्यार्थी स्वतः गायक बनू शकतात	
CO 2	विद्यार्थ्यांना स्वरांची सहज सोप्या पद्धतीने ओळख होते	PSO 2	विद्यार्थी स्वतः वादक बनू शकतात	

CO 3	सरगम गीत प्रकारातून शब्दा ऐवजी स्वरात गीत गणाची सवय होते	PSO 3	विद्यार्थ्यांना भारतीय संगीताची इतम्भूत माहिती मिळेल	
CO 4	देशभक्ती गीत गायनाने विद्यार्थ्यांमध्ये वीररसची ओळख होते	PSO 4	विद्यार्थी स्वतः गायन वादनाचे कार्यक्रम आयोजित करू शकतात	
CO 5	ताल ज्ञानाने विद्यार्थ्यांना शिस्तीत गणाची सवय होते	PSO 5	संगीतातील शिस्त विद्यार्थी अंगी रुजवतील	
CO 6	हेमोनियम वादनाने विद्यार्थी हार्मोनियमशी एकरूप होऊन सुरेलपणे गातात	PSO 6	विद्यार्थी संगीत या विषयामध्ये पारंगत पदवी घेऊ शकतील	
		PSO 7	विद्यार्थ्यांना चांगल्या संगीतातील व वाईट संगीतातील फरक लक्षात येईल	
	B.A I Sem II	PSO 8	विद्यार्थ्यांना संगीतातील वेगवेगळ्या घराण्याची माहिती होईल	
CO 1	विद्यार्थी पाठ्यक्रमातील गीत प्रकार नोटेशन पद्धतीने लिहायला शिकतात	PSO 9	विद्यार्थ्यांना आधुनिक भारतीय संगीत परंपरांची ओळख होईल	
CO 2	विद्यार्थ्यांना पाठ्यक्रमातील रागांची स्तरीय माहितीचा आभ्यास होते	PSO 10		
CO 3	विद्यारताना संगीततज्ज्ञांच्या जीवन व कार्याची ओळख होते		विद्यार्थ्यांना वेगवेगळे वाद्य प्रकार शिकायला मिळतील	
CO 4	विद्यार्थ्यांना तालाचे सविस्तर ज्ञान लिपीबद्ध करता येते			
CO 5	विद्यार्थ्यांची हार्मोनियम व तानपुरा या वाद्य प्रकारासोबत ओळख करून दिल्या जाते			
	B.A I Sem III			
CO 1	विद्यार्थी पाठ्यक्रमातील गीत प्रकार नोटेशन पद्धतीने लिहायला शिकतात			
CO 2	विद्यार्थ्यांना पाठ्यक्रमातील रागांची स्तरीय माहितीचा आभ्यास होते			
CO 3	विद्यारताना संगीततज्ज्ञांच्या जीवन व कार्याची ओळख होते			

CO 4	विद्यार्थीना तालाचा सविस्तर परिचय देऊन मुल लय व दुगून , तीगुन लयीत लिपीबद्ध करायाल शिकविणे			
CO 5	विद्यार्थी पंडित विष्णू दिगंबर पलुस्कर याची स्वरलिपी व तालीपी पद्धतीचे अध्यन करतील			
CO 6	विद्यार्थीना वायोलिन या वाद्याचा परिचय करून दिल्या जातो			
	B.A I Sem IV			
CO 1	विद्यार्थीना स्वर ताल नियमबद्ध गाण्याची माहिती मीळते			
CO 2	विद्यार्थीना छोटा खयाल या आधुनिक भारतीय संगीत पद्धतीची ओळख होते			
CO 3	विद्यार्थीना विलंबित खयाल या आधुनिक भारतीय संगीत पद्धतीचा विस्तृत गायांन मांडण्याची सवय होते			
CO 4	विद्यार्थीना तारण या गीत प्रकारची ओळख होते			
	B.A I Sem V			
CO 1	विद्यार्थी पाठक्रमातील गीत प्रकार लिपी बद्ध करायाल शिकतील			
CO 2	विद्यार्थी राग वर्गीकरणाचा वेगवेगळ्या पद्धती शिकतील			
CO 3	थाट या संगीत प्रकारची ओळख विद्यार्थीना होते			
CO 4	विद्यार्थीना सरंगी व सरोद या वाद्य प्रकाराचा परिचय विद्यार्थीना होते			
CO 5	विद्यार्थीना ब्रारातीय ऐतिहासिक गीत प्रकारांची ओळख			
CO 6	विद्यार्थीना रागातील विस्तृत गान्याची मांडणी स्वर द्वारा करण्याची ओळख होते			
	B.A I Sem VI			

विद्यार्थी अभ्यासक्रमातील गीत प्रकार लिपीबद्ध करायला शिकतील			
विद्यार्थ्यांना रागांची विस्तृत माहिती होते			
विद्यार्थ्यांना गणितीय पद्धतीनुसार तानपुरयाच्या ताराची लांबी व आंदोलन संख्या काढण्याची पद्धत माहिती होते			
पंडित व्यंकट मखी यांच्या गणितीय पद्धतीने ७२ थातांच्या निर्मितीचा सिद्धांत विद्यार्थ्यांना अवगत होईल			
धृपद हा प्राचीन गीत प्रकार व त्याच्या बानि याचे विस्तृत अध्ययन विद्यार्थ्यांना करता येईल			
तालध्यानाने विविध लयीत गाण्याची तसेच वाजविण्याची ओळख विद्यार्थ्यांना होते			
विद्यार्थ्यांन बासरी व स्वर मंडळ या वाद्य प्रकारचा परीचय विद्यार्थ्यांना होईल			
विद्यार्थ्यांना रवींद्र संगीत , नाट्य संगीत व लोकसंगीत याचे विस्तृत अध्ययन विद्यार्थ्यांना होते			
विद्यार्थ्यांन उपशास्त्रीय गीत प्रकारांची ओळख होते			
संगीतातील विविध घराण्यांची ओळख विद्यार्थ्यांना होते			

Department Of Science					
Botony	Course Outcomes		Program Specific Outcomes		Program Outcomes
B.Sc I Sem I					
CO 1	Students will be able to know about lower Plants like Algae, Fungi. Bryophytes & Pteridophyes	PSO 1	1) Students will be able to become a primary Botanist	PO 1	After completing Bachelor of Science degree students will have developed their Scientific Temper
CO 2	They have to know identification and different terms used in Botany and how to perform practical.	PSO2	2) They will know various lower plants like algae, Bryophytes, Pteridophytes & Microbes.	PO 2	Students will be able to develop their Reasoning ability and employ this faculty in day to day life
		PSO 3	Students will be able to know the different between flowering and strobilus plants.	PO 3	Students will be able to develop their analytical ability and
B.Sc. –I –Sem- II					
		PSO 4	They become to elaborate the importance of medicinal plants & acquired the practical knowledge.	PO 4	Students will be able to develop ethical use of science for the development of human society and human life in General
CO 1	Student can be able to describe the plant morphology of Gymnosperm & Angiosperm Plant.	PSO 5	They will able to handle the various instruments.	PO 5	Students will be able to develop their Critical ability.and apply it to the everyday problems of human life
CO 2	They can perform the Practical of Fruit types and classification.	PSO 6	They will be able to make the taxonomic & Anatomical Ideas and Embryology of the Plants by performing experiments.	PO 6	Students will have the heightened knowledge of universe, its mechnism, global climate changes and environmental consciousness
B.Sc- II- Sem- III					
				PO 7	Students should be able to learn how to use science in daily life

CO 1	Students will be able to know ICBN Binomial Nomenclature of the Plants.	PSO 7	They will be able to know life begets life concept i.e transmission of characters from parents to offspring.	PO 8	Students will be able to conduct practicals of thir subject accurately
CO 2	They can identify the field plants taxonomically by using the natural system of classification.	PSO 8	Can do the genetic experiment by following laws.	Po 9	Students will be able to become basic researcher, and develop their research ability to become future scientict and conduct basic research
CO 3	They can performed the anatomical practical of various plants even can able to describe the embryology of the Plant.	PSO 9	By knowing the basic physiological process of the plant students able to know photoautotrophic organism.	PO 10	Students can go to Post graduation in their respective subject of interest. They can pursue the career in competitive examinations
B.Sc- II- Sem- IV		PSO 10	They can do the Photosynthetic experiment.		
CO 1	Students aware about the genetic laws given by Mendel	PSO 11	They will be able to know the composition of atmosphere.		
CO 2	they will be able to know the cell biology, Nature of Mitochondria and cell Biochemistry				
B.Sc- III- Sem- V					
CO 1	Student gets information regarding basic and essential physiological process of plants i.e Photosynthesis.				
CO 2	Students get aware of Plant Metabolism & cellular respiration. Plant nutrients for growth & developments.				

CO 3	Students also get knowledge regarding ecology and ecosystem of nature.				
B.Sc- III- Sem - VI					
CO 1	Students will get some idea about Tissue Culture, Genetic Material, and DNA & RNA.				
CO 2	Students will Know about Photosynthetic products also gets idea about Genetically Modified Crops				
Department of Chemistry	B.SC I SEM I				
CO-1	Student must know about periodic properties.	PSO 1	Have sound knowledge about the fundamentals and applications of chemical and scientific theories.		
CO-2	Student must know about nature of chemical bond.	PSO2	2) Every branch of Science and Technology is related to Chemistry.		
CO-3	They will be able to know about electronic displacement, intermediates, aliphatic hydrocarbons and aromatic hydrocarbons.	PSO 3	3) Easily assess the properties of all elements discovered.		
CO-4	Student must understand nature of gas, properties and basic thermodynamics.	PSO 4	4) Apply appropriate techniques for the qualitative and quantitative analysis of chemicals in laboratories and in industries.		
CO-5	They must be able to understand about inorganic qualitative analysis, synthesis of some organic compounds.	PSO 5	5) Will become familiar with the different branches of chemistry like analytical, organic, inorganic,		

			physical, environmental, polymer and biochemistry.		
		PSO 6	6) Develops analytical skills and problem solving skills requiring application of chemical principles.		
	B.SC I SEM – II	PSO 7	7) Acquires the ability to synthesize, separate and characterize compounds using laboratory and instrumentation techniques.		
CO-1	Students must understand about nature of covalent bond and geometry.	PSO 8	8) They will be able to handle various instruments.		
CO-2	They should know about acid base theory.	PSO 9	9) To develop the scientific temper among the student.		
CO-3	Student must be able to know about P- Block elements, Noble gas and non-aqueous solvent.	PSO 10	10) To apply the chemical knowledge to the society.		
CO-4	They should know about physical properties of the substance and about kinetics of the reactions.	PSO 11	11) They should know where we use chemistry in daily life.		
CO-5	They should know the determination of some properties of liquid by laboratory apparatus.				
	B.SC II SEM III				
CO-1	Student should know about covalent Metallic bonding.				
CO-2	They should know about volumetric, Gravimetric analysis.				

CO-3	Student should know about aldehydes, ketone and carboxylic acid.				
CO-4	They should know about stereochemistry of the molecules.				
CO-5	Student should know about thermodynamics and phase equilibrium of some basic system.				
CO 6	Estimation of some inorganic compounds by volumetric titration and hardness of water.				
	B.SC II SEM IV				
CO-1	Student should know about properties of coordination compounds.				
CO-2	They must be understood about periodic properties of inner transition elements.				
CO-3	They must able to understand about carbohydrates, Amino acids, proteins and diazonium compounds.				
CO-4	Students should know about colligative properties of the solution.				
CO-5	They must be able to understood crystal and their structure and symmetry.				
CO 6	Isolation and estimation of some organic compounds by laboratory instruments.				
	B.SC III SEM V				

CO-1	Student should know about coordination compound, electronic spectra of complexes and CFT.				
CO-2	2) They must be able to know about heterocyclic compound, Dyes, Drugs and pesticides.				
CO-3	3) They must be known about organometallics.				
CO-4	4) Student should know about quantum yield fluorescence and phosphorescence.				
CO-5	5) Student should know about electromagnetic spectra like IR, UV, and Visible region Raman spectra.				
	B.SC III SEM VI				
	Student should know about kinetics of coordination compound and spectrophotometer and chromatography.				
	2) They must be able to know about organometallics in coordination inorganic polymer, essential and non-essential elements.				
	3) They should know about spectroscopy technique.				
	4) They should know about elementary quantum mechanics,				

	Electrochemistry and Nuclear chemistry.				
	5) Estimation of and Analysis of compounds by Colorimeter, Spectrophotometer, pH meter etc.				
	Department of Physics				
	B.Sc I Sem I				
CO 1	Students will be able to know about Mechanics, Properties of matter, Waves and Oscillation and fluids kinematics.	PSO 1	Students will be able to become a Physicist		
CO 2	They have to know identification and terms used in Physics and how to perform practical	PSO 2	Demonstrate a rigorous understanding of the core theories & principles of physics, which includes mechanics, electromagnetism, thermodynamics, & quantum mechanics.		
		PSO 3	Learn the Concepts as Quantum Mechanics, Relativity, introduced at degree level in order to understand nature at atomic levels		
	B.SC I SEM II	PSO 4	Understand the set of physical laws, describing the motion of bodies, under the influence of system of forces.		

CO 1	Students will be able to know about Kinetic theory, Thermodynamics and Electric current with related best knowledge about Practical instruments in laboratory	PSO 5	Understand the relationship between particles & atom, as well as their creation & decay.		
	B.SC II SEM III	PSO 6	Relate the structure of atoms & subatomic particles Understand physical properties of molecule the chemical bonds between atom as well as molecular dynamics.		
	Students will be able to know about mathematics and electrodynamics, Magnetostatics, Solid state devices, relativity and Geophysics with related best knowledge about Practical instruments in laboratory.	PSO 7	Analyze the applications of mathematics to the problems in physics & develop suitable mathematical method for such application & for formulation of physical theories		
		PSO 8	Learn the structure of solid materials & their different physical properties along with metallurgy, cryogenics, electronics, & material science.		
	B.SC II SEM IV	PSO 9	Understand the fundamental theory of nature at small scale & levels of atom & sub-atomic particles.		

CO 1	Students will be able to know about Quantum mechanics, atomic and molecular physics, hybrid parameter and feedback amplifier with related best knowledge about Practical instruments in laboratory.	PSO 10	They will be able to identify and Solve the practical problem.		
	B.SC III SEM V	PSO 11	Introduction of a wide range of Physics topics, leading from the fundamentals, in the first two years, to the limits of existing knowledge in selected and advanced topics by the final year.		
	Students will be able to know about statistical mechanics, crystallography, electric and magnetic properties of materials, superconductivity and nanotechnology with related best knowledge about Practical instruments in laboratory.				
	B.SC III SEM VI				
	Students will be able to know about statistical mechanics, crystallography, electric and magnetic properties of materials, superconductivity and nanotechnology with related best knowledge about Practical instruments in laboratory				
	Department of Zoology				
	B.Sc I Sem I				

CO 1	Students are able to understand the complete knowledge of Taxonomic study along with all invertebrate phyla(from protozoa to hemichordate) along with its representatives like plasmodium, metridium, ascaris, pila, etc.	PSO 1	Students will be able to present scientific hypotheses and data both orally and in writing in the formats that are used by practicing scientists.		
CO 2	They are able to understand the affinities of non-chordate and chordata.	PSO 2	Overall it depicted the innovation and scientific temperament for overall & multidimensional development of student with relation to syllabus.		
CO 3	Students inculcate the knowledge of larval forms in non-chordates.	PSO 3	Develop research oriented skills in students with deep knowledge of Zoology for career and future perspective to become zoologist having update and recent trends in current scenario.		
CO 4	In practical account they learnt the morphological features of all taxonomic representatives of non-chordates through charts, power point presentation, and record in lab.	PSO 4	To develop a habit in students regarding each specific topic of zoology for their understanding of subject knowledge enhancement in a lucid manner.		
	B.Sc I Sem II				
CO 1	Students are able to understand about the cell and its organelles like Mitochondria, PM, Lysosome, Ribosome, Golgi complex, Chromosomes etc.				

CO 2	They learnt division Spermatogenesis, oogenesis, Embryonic stages and Mechanism of fertilization etc.				
CO 3	They also learnt about the placentation in mammals' parthenogenesis and regeneration process, use of stem cell.				
CO 4	Practical's includes cytological preparation, types of eggs, developmental stage of various insects like cockroach, house fly etc.) Chick embryo through permanent slides, charts etc.				
	B.SC II SEM III				
CO 1	Students are able to acquire knowledge about the detail study of chordates along with its animal type (from protochordates to mammals).				
CO 2	They can understand about the life cycle of dog fish, Rana tigerina, Calotes etc.)				
CO 3	They can easily understand about the endocrine glands of mammals and its deficiency and Evolution etc.				
CO 4	Students are able to understand the evolutionary process like natural selection and concept of organic evolution etc.				

CO 5	They learnt about the fish scale slide preparations etc in laboratory along with the chordates morphology, features etc.				
	B.SC II SEM IV				
CO 1	Students are able to understand about the gene and Mendel's law of inheritance.				
CO 2	They can easily understand about sex determination theory and syndromes like down, Edward, Turner etc.				
CO 3	Students are able to know the Genetic Screening and Parental care, CVS, Twins, theory of linkage.				
CO 4	They can understand about the ecology and ecosystem. They learnt the all abiotic and biotic factors of an ecosystem.				
CO 5	Students are acquiring knowledge practically about the nature of water in terms of B.O.D, C.O.D, and pH etc. They learnt water analysis in lab by collecting water samples in their habitation.				
	B.SC II SEM V				
CO 1	Students are easily understand the typical physiological process like respiration, circulation, muscle physiology, reproductive physiology etc.				

CO 2	They can understand the process of nerve physiology and chemical co-ordination along with the endocrine glands.				
CO 3	Students are able to know about the hormones and its deficiency, effect on human health & diseases (Dwarfism, Goiter, Myxoedema etc)				
CO 4	Students are able to incubate the knowledge of economic importance of insects along with harmful insects				
CO 5	Students are able to understand about Aquaculture and agricultural zoology.				
CO 6	In practical students incubate the practical knowledge of estimation of Hb, WBC, RBC, BP etc and locally available fish.				
	B.SC. III SEM VI				
CO 1	Students are able to understand about DNA, RNA, & DNA replication, Concept of genes.				
CO 2	Students are able to know about the genetic code, protein synthesis and gene regulation.				
CO 3	Students incubate the knowledge of mutation, DNA finger printing.				

CO 4	They learnt about genetic engineering like DNA recombinant technology, gene cloning, gene transfer etc.				
CO 5	They can understand about immune system and antibodies etc.				
CO 6	In practical they access the use & care of oven and microtome techniques like preparation of slides, alcohol gradients used in process etc.				
	Department of Mathematics				
	B.SC I SEM I				
	Students have to know deep knowledge in Algebra and Trigonometry. Algebra and trigonometry embodies Matrices ,Eular function ,quaternion group , Gregory series , quadratic equation . And Limit , continuity, derivative ,Integration , application of derivative,Maxima and minima and stationary point.				
	B.SC I SEM II				
	Students to solve many problem on the topic ODE (Ordinary Differential Equation) and PDE (Partial Differential Equation).				

	In the ODE has to problem solve of Bernulli's method, Auxiliarynt method,first order differential method with constant and with variable and second order partial differential equation with constant coefficient and variable coefficient .				
	And Scalar , Vector , Triple vector product and Sphere , cone ,cylinder.				
	B.Sc-II [Sem-III]				
	Students must to know about the number theory viz. Natural no. whole no. Integer ,Rational Number ,Irrational no. real no.complex no.GCD or HCF and LCM , biquadratic equation .				
	And Sequence, series , Limit, Continuity and derivative with two variable				
	B.Sc-II [Sem-IV]				
	Students deep studied in Group and ring theory which embodies Set theory , closure, associative,monoid,group and abelian group ,ring ,subring , ideal,integral domain and mechanics.				
	B.Sc-III [Sem-V]				

	Students able to understand the basic concept of Riemann integral ,improper integral , metric space, compactness, connectedness and analytic function .				
	And Legendre Besel's equation , fourier series , transform , calculus of variation				
	B.Sc-III [Sem-VI]				
	Students will understand the concept of Linear Algebra in which Matrices , Vector Space, Linear Transformation , Inner Product space.				
	And Relativity .				
DEPARTMENT OF COMPUTER SCIENCE	B.SC I SEM I				
	Students will know basic structure of Computer. Student will know various types of OS. Student must know about internet and its uses . Student must know basic structure & logic of C programme.				
	B.SC I SEM II				
	Student will advance C programming. Student will develop website & webpage.				
	B.SC II SEM III				

	Student will know basics of C++ & their logic. Students will solve various algorithm by using C++				
	B.SC II SEM IV				
	Student will perform programmes by using Java (JVM).				
	B.SC III SEM V				
	Student will perform programmes by using Java (JVM).				
	B.SC III SEM VI				
	Student will design GUI Programme in VB.Net.				
Department of Chemistry Ph.D.	1. Develop a logical and reasoning abilities.			PO 1	Scholars can understand the
	2. Develop thorough understanding of green synthesis and physico-chemical				concepts and methods of
	properties of various molecules in solution. 3. Research outcomes and their				research.
	interpretations should be clearly presented orally, elucidate in posters and in peer			PO2	Scholars are able to develop
	reviewed publications				research proposal and can
					work with problems.
				PO3	Scholars become aware
					about the computer
					application in research.
				PO4	Scholars know the softwares
					and its application in research.

				PO5	Scholars learn to use various
					research methods for their
					research work.
				PO6	Scholars can come to certain
					conclusion after completing the
					research work.
				PO7	Scholars can continue their
					research work for further post
					doctoral research

DEPARTMENT OF COMMERCE	course outcomes		program specific outcomes		program outcomes
	B.COM I SEM I Computer Fundamentals and Operating System				
	After completion of this subject the students have the basic ability in fundamentals of computer, Inputs-outputs, CPU, Operating Computers and MS-Word.	PSO 1	The sense & ability to use multimedia, information technology understand, analyze the problems and develop the plan according to situation, ability to handle the data base, user managerial skills in organizations.	PO 1	· Students will develop as effective management professionals and take on more responsibilities in future and to give outstanding results in the area of their interest.
	B.COM I SEM II Computer Fundamentals and Operating System				
	After completion of this subject the students have the basic ability in Operating System basics, Concepts of ways of modern communications, Word processing with tables and graphics, PowerPoint presentation basics.			PO 2	· This program could provide well trained professionals for the technology and linked industries to meet the well trained manpower requirements.

	B.COM II SEM III INFORMATION TECHNOLOGY & BUSINESS DATA PROCESSING			PO 3	· The graduates will get hands on experience in various aspects of information technology viz. Computer Fundamentals, Office XP, Computer Operation, Data Entry, etc.
	After Completion of this subject the students will have competence about Data, Database, Database Management Systems, Excel Worksheet basics.			PO 4	The program will help the graduates to take up responsibilities in production, costing, selling, packing and marketing in the information technologies and contribute for the growth of industry.
	B.COM II SEM IV INFORMATION TECHNOLOGY & BUSINESS DATA PROCESSING				
	After Completion of this subject the students should have competent about Concepts of information, basics of tally, Computerized accounting				
	B.COM III SEM V E-COMMERCE				
	After Completion of this subject the students should have aware to concepts of E-Commerce, E-Market , B2B, B2C, G2C, CSR, E-Auction, Business Strategies.				
	B.COM III SEM VI E Commerce				
	After Completion of this subject the students should have aware to E-Commerce Business models, Internet & Online Marketing , E-Governance and E-Governance models.				

	B.COM III SEM V INTERNET & WORLD WIDE WEB				
	After Completion of this subject the students should have competent about Network types, Internet concept, mechanism, E-mail creation-sending, receiving, awareness about basics of <i>HTML</i> , website functioning.				
	B.COM III SEM VI INTERNET & WORLD WIDE WEB				
	After Completion of this subject the students should have competent about Web Browsing, effective use of <i>Search engine</i> , features of Google, Social networking websites: facebook, twitter, instagram, Google Drive, Google Classroom,MS-Frontpage etc.				
	B.COM I PRINCIPLES OF BUSINESS ORGANIZATION				
CO 1	Students will be able to understand the concept of organization				
CO 2	Students will be able to know nature and importance of planning				
CO 3	Students will be able to develop organizational skills				
CO 4	Students will be able to understand the concept & importance of direction				
CO 5	Students will be able to know the technique of control				

	B.COM I SEM II PRINCIPLES OF BUSINESS MANAGEMENT				
CO 1	Students will be able to understand concept & thought of management				
CO 2	Students will be able to know the nature & importance of management				
CO 3	Students will be able to development management skills				
CO 4	Students will be able to understand the concept & importance of direction				
CO 5	Students will be able to know the technique of control				
	B.COM II SEM III MATHEMATICS				
CO 1	Students will be able to solve various problems of integers				
CO 2	Students will be able to apply factor remainder theorem to solve problem				
CO 3	Students will be able to solve problem on compound and simple interest				
CO 4	calculate LCF & HCF				
CO 5	Students will be able to identify Algebraic & order properties of number				
	B.COM II SEM III MNS				
CO 1	Students will be able to meaning & function of money				

CO 2	Students will be able to know about Indian Money market				
CO 3	Students will be able to understand Indian financial system				
CO 4	Students will be able to know commercial bank and its functions				
CO 5	Students will be able to understand the function of RBI				
	B.COM II SEM IV MFS				
CO 1	Student will be able to understand population and economic development				
CO 2	Students will be able to understand economic planning in India				
CO 3	Students will be able to understand salient features of economy				
CO 4	Students will be able to understand Indian Money Market				
CO 5	Students will be able to understand Indian Capital Market				
	B.COM II SEM IV BUSINESS MATHEMATICS				
CO 1	Students will be able to calculate mean mode median				
CO 2	Students will be able to calculate index number				
CO 3	Students will be able to calculate standard deviation				
CO 4	Students will be able to calculate central tendency & their measures				

CO 5	Students will be able to know the concept of corelation & interpolation				
	B.com III Sem V Business Environment				
CO 1	Students will be able to understand Indian Business Environment				
CO 2	Students will be able to understand Indian agriculture Environment				
CO 3	Students will be able to understand Indian Industrial Environment				
CO 4	Students will be able to Understand Indian Service Environment				
CO 5	Students will be able to understand India & foreign Environment				
	B.COM I SEM I Advance Accountancy				
CO 1	This course enable the students to understand the concept of financial account & advance account, accounting transactions, ledger rules regarding posting and subsidiary book.				
CO 2	Obtain the knowledge about final accounts of individual, depreciation methods and reconciliation of bank cash book & Pass book.				
	B.CO II SEM II Financial Account				

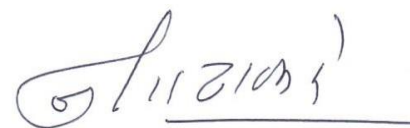

CO 1	To know about accounts of Non-trading Institutions, co-operative societies.				
CO 2	To understand the concept of farming accounting and Insolvency account				
CO 3	To gain knowledge about Hire purchases & Installment purchase Accounts.				
	B.COM II SEM III Company Accounts				
CO 1	This course enable the students to develop awareness about company account.				
CO 2	To gain knowledge about shares and accounting entries regarding issue of shares, profit prior to incorporation, companies amalgamation and absorption.				
	B.COM II SEM IV Corporate Accounting				
CO 1	Due to this course students obtain knowledge of Banking, fire and accident insurance company, Liquidation of company.	PSO 1	Students will be able be able to demonstrate progressive learning of various tax issues and tax forms related to individuals.		

CO 2	Analyze the good will and share valuation.	PSO 2	Students will be able to demonstrate knowledge in setting up a computerized set of accounting books.		
		PSO 3	Students will demonstrate progressive affective domain development of values, the role of accounting in society and business.		
	B.COM III SEM V Cost accounting	PSO 4	Students will learn relevant financial accounting career skills, applying both quantitative and qualitative knowledge to their future careers in business.		
CO 1	The students understand clearly to reduce and control the cost during the course of production because cost is a vital aspect in the modern business.				
CO 2	To provide knowledge about the ascertainment the profitability of each of the products and advise the management to maximize its profits.				
	B.COM III SEM VI Management Accounting				

CO 1	This course provides students with an understanding of management accounting concepts related to the management functions of planning, control and decision making.				
CO 2	Obtain the knowledge about Break-Even-Analysis concept and Ratio Analysis.				
	B.COM III SEM V Business Regulatory Frame Work				
CO 1	To understand the concept of business laws and it's application in business regulation.				
	B.COM III SEM VI Company Law				
CO 1	Obtain the knowledge about formation, classification and incorporation of company.				
CO 2	To know about share capital, transfer-transmission of share and company meetings.				
	BCOM I SEM I PRINCIPLES OF ECONOMICS				
CO 1	Student will be able to understand basic principles of economics	PSO 1	Students will learn Economics in context of commerce		
CO 2	Student will be able to understand various laws of demand	PSO 2	Students will learn market and market policies		
CO 3	Student will be able to understand elasticity of Demand	PSO 3	Students will learn how handle newly started business		

CO 4	Student will be able to understand production function	PSO 4			
CO 5	Student will be able to able to various aspects of cost and revenue	PSO 5			
	B.COM I SEM II Business Economics				
CO 1	Students will be able to understand Business economics and Managerial economics and its related aspects				
CO 2	Students will be able to understand market and its functioning				
CO 3	Students will be able to learn factors affecting price of the goods and services				
CO 4	Students will be able to understand the terms Interest and profit				
	B.COM II SEM III				
CO 1	Students will be able to understand various aspects of Audit				
CO 2	Students will be able to understand various aspects of assets and liabilities				
CO 3	Student will be able to know nature of appointment and functions of company auditor				
CO 4	Student will be able to know audit report, types of audit report, deident etc				
CO 5	Student will be able to know how to do audit of educational institution Banking and insurance sedctor				
	B.COM II SEM IV INCOME TAX				

CO 1	Student will be able to understand various aspects of Income and taxes				
CO 2	Student will be able to how to compute income from salary and house property				
CO 3	Student will be able to how to calculate income from other sources and deductions from gross salary of resident individual				
CO 4	Student will be able to know the powers of income tax authorities and assessment procedure				
CO 5	Student will be able to know the process of income tax return filing and various formats of e filing				

Principal

M. S. P. Arts, Sci. & K. P. T. Comm.
College, Monora Dist. Washim
