Report on Workshop of

**“CHARACTERIZATION OF ORGANIC  
COMPOUNDS”**

Date: 03-Sep-2018

Submitted to  
Dr. N. S. Thakare  
Principal

Submitted by  
Mr. S. D. Ingole  
Asst. Professor, Department of Chemistry

## **Report on Characterization of Organic compounds**

### **Introduction:**

Chemistry is branch of science and it is also called as central of science. Most of the branches of science are related to the chemistry. In daily life we use most of the chemical products directly and indirectly. Medicine that we take is nothing but chemical compositions. As a student of chemistry they must know the basics of this subject like properties, composition and structure etc. By considering all these things department of Chemistry organized workshop on “Characterization of Organic compounds” and for this workshop we invited an expert Dr. T.S. Dalavi from Nashik. He focused on all the issues regarding to characterization of organic compound.

### **Objectives:**

1. To make aware the students about Characterization of organic compounds.
2. To develop scientific temper among students.
3. To improve knowledge of chemistry Students by which they apply it in day to day life.

### **Details of Workshop**

- i) Theme: “Characterization of Organic Compounds”
- ii) Experts invited:  
Dr. T. S. Dalvi, Department of Chemistry ,Nashik
- iii) Date: 03- Sep - 2018
- iv) Participants :150 Students
